SUMMARY

Computer Science and Engineering graduate from Green University of Bangladesh with interests in software engineering and full stack web development. Experienced in JavaScript, TypeScript, React, Next.js, Node.js, Express.js, Python, MySQL, PostgreSQL and MongoDB. Built the BazarDor, MoneyBag, FitLog and DevStack web applications covering authentication, database integration and responsive interfaces. Seeking an internship or junior developer role to build reliable, user-friendly software and grow as a professional Software Engineer.

PROJECTS

BazarDor – Daily Market Price App
A full stack web application for tracking daily market prices.
Category browsing, price sorting, price-change indicators and market-wise product details, with email/password and social login, protected pages and editable user profiles.
GitHub: github.com/iamminhaz31/bazardor-app | **Live Demo:** bazardor-app.vercel.app
Technologies: Next.js, TypeScript, Tailwind CSS, PostgreSQL, Better Auth.

MoneyBag – AI-Assisted Budgeting & Money Tracking Application
An independent personal-finance web application for budgeting and expense tracking.
Independently planned and developed the complete project end-to-end, from initial design through implementation.
Technologies: HTML, CSS, JavaScript, React.

FitLog – Workout Library & Personal Plan
A workout library with a personal plan.
Search, filters, sorting and exercise detail pages; saved workouts and a personal plan with completion tracking and toast messages.
GitHub: github.com/iamminhaz31/fitlog | **Live Demo:** fitlog-zeta-ten.vercel.app
Technologies: Next.js, React, JavaScript, Tailwind CSS.

DevStack – Technology Stack Builder
A responsive explorer for development tools.
Browse frontend, backend, database, language, styling and DevOps tools; add technologies, remove single items and clear your stack.
GitHub: github.com/iamminhaz31/dev-stack | **Live Demo:** dev-stack-eight.vercel.app
Technologies: React, JavaScript, Tailwind CSS, Vite.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python
- **Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS, DaisyUI, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, Authentication (Better Auth)
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Vercel, Vite

EDUCATION

Green University of Bangladesh, Rupganj *[2022 – September 2026]*
Bachelor of Science (B.Sc.) in Computer Science and Engineering, **CGPA: 3.01**

Mohammadpur Govt. College, Dhaka *[2020]*
Higher Secondary Certificate, Dhaka Board, **GPA: 5.00**

Govt. Laboratory High School, Dhaka *[2018]*
Secondary School Certificate, Dhaka Board, **GPA: 5.00**

AWARDS & RECOGNITION

Academic Achievement – Top 3, Integrated Design Project (MoneyBag), Green University of Bangladesh; presented to the Vice-Chancellor and Dean (2025).

Independent Project Development – Designed and built MoneyBag independently as a complete web application project.

Research Engagement – Final-year research on multimodal deepfake video and audio detection.

Science & Technology Fair – 1st Place, BUET Science Fest (2017).

THESIS / RESEARCH

Multimodal DeepFake Detection
Supervisor: Mr. Sharifur Rahman, Lecturer, Department of CSE, Green University of Bangladesh
Researching deepfake video and audio detection with emphasis on out-of-distribution (OOD) generalization gaps, evaluated under ITW and A3 conditions.
Technology: Python, PyTorch, Multimodal Learning, KNN, BERT, Scikit-learn, NumPy, Pandas, Matplotlib.
